A cookie is a small file which is stored on your PC, Laptop, Mobile or Tablet.

We use cookies to remember important settings which are relevant to your browsing session, this allows you to use this website and get the most out of your browsing experience.

We do not store any personal information, any data used is based in your unique session ID and is completely random and anonymous. Our use of cookies allow you to log in or out of our website, complete contact forms and allows you to navigate through the site.

Please feel free [Contact Me](#) if you have any questions.
